- **The Risk:** A single loss can eliminate the revenues accumulated from several previous winning rounds.

2. The Martingale System (Aggressive)

- **The Risk:** This technique requires a considerable bankroll and can trigger table limits or disastrous losses during an extended losing streak.

3. Going After the Moonshots (High Risk)

- **How it works:** Players set very high multipliers (e.g., 100x, 500x, or 1000x) with little base bets, dealing with the game similar to a lottery game ticket.
