In Avia Masters, gamers put a wager and see a little aircraft take off. As the aircraft climbs greater into the stratosphere, a multiplier coefficient starts to increase from 1.00 x upwards. The main goal is deceptively basic: **money out before the aircraft crashes or flies away.**

- **Manual vs. Auto Cash-Out:** Players can choose to by hand click the cash-out button at their preferred moment, or they can set an auto cash-out threshold. For instance, setting it to 2.00 x implies the system will immediately collect payouts if the aircraft reaches that multiplier.
- **Dual Betting Panels:** Many versions of Avia Masters allow gamers to put two different bets at the same time on the exact same round. This opens tactical possibilities, such as squandering one bet early to protect profit while letting the second bet ride for a higher multiplier.
