However, what separates Crazy Time from basic cash wheel games-- like *Dream Catcher*-- is the inclusion of the **Top Slot**. Above the primary wheel sits a two-reel mini fruit machine that spins at the same time with every primary wheel spin. This Top Slot produces a random multiplier for a specific bet segment, which can considerably boost payments if that segment strikes on the main wheel.

Perk Round Frequency on Wheel Optimum Potential Multiplier Description **Coin Flip** 4 segments 5,000 x A simple red and blue coin is turned to determine a multiplier. **Money Hunt** 2 sectors 10,000 x A shooting gallery screen with 108 random multipliers hidden behind symbols. **Pachinko** 2 sections 10,000 x A radiant puck is dropped down a peg wall to land in a multiplier slot. **Crazy Time** 1 sector 20,000 x An enormous virtual wheel behind a red door offering life-altering multipliers.

1. Coin Flip

This is the most regular bonus round. The host steps up to a digital flipping gadget. A coin with a Red side and a Blue side is turned, and whichever side lands face up awards the corresponding multiplier to the gamer. Before the flip, multipliers are randomly appointed to both sides, and a "Rescue Flip" can in some cases happen if the initial multipliers are considered too low.

2. Money Hunt

Players are presented with a huge screen showing 108 random multipliers camouflaged behind numerous shooting gallery icons (like a cactus, a target, or a constable's badge). Using a virtual cannon, the gamer should aim and fire at one symbol before the timer runs out. When the timer expires, all symbols expose their hidden multipliers, and the player wins the multiplier behind their selected target.

3. Pachinko

Motivated by the conventional Japanese arcade game, this round features a massive physical wall filled with pegs. The host drops a glowing puck from the top, and it bounces arbitrarily down the board until it lands in one of the slots at the bottom, each containing a multiplier. If the puck lands in a "Double" slot, all multipliers on the board double, and the puck is dropped once again approximately an optimum multiplier limit.

4. Crazy Time

The holy grail of the video game. Players pass through a mysterious red door into a virtual, psychedelic wonderland featuring an enormous 64-segment wheel. Before the wheel is spun, the player must choose among three flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the chosen flapper indicate is granted. If it indicates "Double" or "Triple," all multipliers on the wheel boost, and the wheel spins again up to a maximum cap of 20,000 x.
