What is Crazy Time?

At its core, Crazy Time is a live dealer cash wheel game. Inspired by Evolution's earlier success, *Dream Catcher*, the designers sought to take the basic wheel-spinning idea and supercharge it with modern innovation, side bets, and multi-layered bonus video games.

The video game is hosted in a lively, Willy Wonka-esque studio where charming speakers interact with players by means of live chat, spin the giant wheel, and guide gamers through various bonus sectors. The environment is hectic, theatrical, and unpredictable.

Standard Setup and Interface

- **The Host:** A live presenter manages the video game pacing, spins the 54-segment wheel, and hosts the benefit rounds.
- **The Top Slot:** Positioned above the main wheel, a two-reel slot spins at the same time with every video game round. It appoints a random multiplier to a specific bet area, which can considerably increase payments.
- **The Wheel:** The primary wheel functions 54 sectors divided among numbers (1, 2, 5, 10) and 4 unique reward games.

Understanding the Wheel Segments and Odds

Players place bets on several of the eight possible results on the wheel. Understanding the circulation of these Bitz sectors is essential for comprehending the video game's volatility.

Wheel Segment Variety of Segments on Wheel Payment Odds Approximate Probability **1** 21 1:1 38.89% **2** 13 2:1 24.07% **5** 7 5:1 12.96% **10** 4 10:1 7.41% **Coin Flip** 4 Perk Round 7.41% **Cash Hunt** 2 Bonus offer Round 3.70% **Pachinko** 2 Bonus Round 3.70% **Crazy Time** 1 Perk Round 1.85%

As the table shows, the numbered segments appear most regularly, using stable, smaller sized wins. On the other hand, the reward rounds appear less regularly but hold the key to the game's massive optimum payouts.

- **The Mechanism:** Before the flip, multipliers are arbitrarily designated to the red and blue sides of the coin. Whichever side lands face up wins the multiplier for the getting involved players.

2. Cash Hunt

- **The Setup:** An enormous virtual screen shows 108 random multipliers hidden behind shooting gallery signs (like a duck, a star, or a bunny).
- **The Mechanism:** Players are offered a minimal countdown timer to objective and fire a cannon at a sign of their choice. Once the timer expires, all signs expose their concealed multipliers, and the player gets the value behind their chosen target.

3. Pachinko

- **The Setup:** A radiant, retro-style Pachinko wall including a grid of pegs.
- **The Mechanism:** The host drops a puck from the top of the board. As the puck bounces randomly down through the pegs, it ultimately lands at the bottom in among a number of multiplier slots. If the puck lands in a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

- **The Setup:** The host opens a red door leading into a surreal, oversized virtual world including a gigantic 64-segment wheel.
