The principle is uncomplicated:

1. **Lobby Creation:** Two or more players pool their resources to buy the exact same set of cases.
2. **The Open:** The cases are opened simultaneously in a fast-paced, animated face-off.
3. **The Winner:** At the end of the battle, the total value of all the skins dropped is calculated for each gamer. The participant (or team) with the highest overall skin value wins **all** the dropped products from every player's cases.

If you are lucky, you can pull a knife while your opponents pull low-tier consumer-grade weapons, sweeping the entire board.
