A case battle is a short, head-to-head match where 2 (or more) players open the exact same CS: GO case simultaneously. The gamer who obtains the more important skin wins the opponent's products. The process follows three basic actions:

1. **Select a case**-- Players pick a particular weapon case (e.g., The Kill Box, Clutch Case, or Operation Broken Fang).
2. **Place a stake**-- Each participant devotes a certain variety of skins or credits that correspond to the case's price.
3. **Open the case**-- The platform randomly assigns a skin based on the case's rarity table. The higher-value skin wins the pot.

Understanding the underlying possibility model is vital. Each case has a published rarity distribution (e.g., Blue(Consumer), Purple(Industrial), Pink(Classified), Red(Covert), and Gold(Knife-grade). While the exact odds differ in between cases, the general hierarchy stays consistent.

Case Name	Blue (Consumer)	Purple (Industrial)	Pink (Classified)	Red (Covert)	Gold (Knife)	The Kill
Box	79.9%	15.9%	3.2%	0.9%	0.1%	Clutch Case
	78.6%	16.2%	3.5%	1.0%	0.07%	Operation Broken
