

The basement waterproofing inspection process at JLB Foundation Repair and Basement Waterproofing begins with a simple description of the home's age and the specific moisture issues being seen. A foundation and waterproofing specialist typically calls to schedule the free, in person estimate, during which the local Clay County repair crew assesses the home directly. During the visit, the inspector examines walls, floors, drainage patterns, and any visible signs of moisture before providing a detailed assessment and honest pricing [basement waterproofing](#) for recommended work.

JLB Foundation Repair and Basement Waterproofing | 111 NE 72nd St Ste 111, Gladstone, MO 64119 | (816) 408-3651
