What is a Live Casino?

A live casino is an online gaming platform that streams real-life casino video games in real-time from specially developed studios or actual land-based casino floorings. Unlike standard digital casino video games that rely on Random Number Generators (RNGs) to determine results, live casino games include human croupiers and dealerships handling physical devices-- such as actual roulette wheels, real card decks, and real dice.

Players view the action unfold via high-definition (HD) video streaming and can put bets, interact with the dealer, and chat with other players using an user-friendly digital user interface on their gadgets.
