1. **The Bet:** Players position their wager before the round begins.
2. **The Ascent:** A visual aspect-- in this case, the angler setting off in his boat-- begins to move, and a multiplier begins ticking upward from 1.00 x.
3. **The Cash-Out:** Players must by hand cash out before the action arbitrarily "crashes" (the boat stops, sinks, or sails away).
4. **The Outcome:** If a player cashes out in time, they win their stake multiplied by the current value. If the game crashes before they cash out, the bet is lost.
