

For more severe hail damage covering multiple panels with numerous dents, Hail Solutions Paintless Dent Repair typically estimates up to about a week for a complete repair. This longer timeline reflects the methodical nature of paintless dent repair, where each individual dent requires careful attention rather than the faster bulk approach of filler and repaint. A realistic timeline is **local PDR repair** provided after an in person inspection, giving Kansas City metro drivers a clear expectation before committing to the repair process.

Hail Solutions Paintless Dent Repair | 2109 E Kansas City Rd, #22, Olathe, KS 66061 | (816) 451-1455

Even at the longer end of this range, severe hail damage repair through paintless technique remains generally faster than traditional body shop timelines for comparable damage. For **paintless dent repair** an accurate timeline on severe hail damage repair, call Hail Solutions Paintless Dent Repair at (816) 451-1455.
