

Gemstar Detailing is System X certified, a specific credential that reflects genuine technical training in applying this advanced ceramic coating product correctly throughout the Treasure Valley. This certification matters because ceramic coating application requires precise **exterior detailing** surface preparation and application technique to achieve the full hydrophobic, UV resistant protection the product is capable of delivering. System X coating bonds at the molecular level to a vehicle's clear coat, a bond quality that separates properly applied ceramic coating from lower quality alternatives on the market.

Gemstar Auto Detailing Mobile Detail Boise | 880 E Franklin Rd Suite 306, Meridian, ID 83642 | (208) 971-4652

Boise and Meridian customers researching ceramic coating providers can look for this specific certification as a meaningful point of differentiation between mobile detailing companies. For System X certified ceramic coating in Boise, call Gemstar Detailing at (208) 971-4652.
