A phone that will not light up is alarming mainly because you cannot tell what is going on inside it. Is it dead, or is it just the display? Black screen faults are among the most common jobs that reach Free Fusion in Corby, and the first thing we do is phone screen repair separate the two possibilities, because they lead to very different repairs.

There are some quick signs you can check yourself. If the phone vibrates, rings or makes notification sounds while the display stays dark, the phone itself is probably alive and the screen is the likely culprit. If there is no sound, no vibration and no response to charging, the cause could be a flat or failed battery, a faulty charging port, or a problem on the main board. Plug the phone in for at least half an hour with a cable you trust before drawing any conclusions. A deeply flat battery can take a while to show any sign of life, and some phones will only show the charging symbol after several minutes on the lead. Try a different socket and cable as well, because a faulty charger is a surprisingly common reason people believe their phone has died completely when it has simply run out of power.

A forced restart is the next step, and the combination varies between models, so a quick search for yours is worthwhile. Many black screens that follow a software crash come back this way. If the phone has been dropped or has been near water, the black screen may be the visible side of a bigger problem, and it is best not to keep trying to charge it. Let us look at it first, because water damage diagnosis starts from £9.99 on an iPhone.

Our diagnostic check is free for local customers, which makes the decision easy. We test the display, the battery and the charging port in turn and tell you what we find. If the screen has failed, an iPhone screen starts from £24.99, and most smartphone screen replacements are completed within about an hour at the Corby centre. A battery from £19.99 or a charging port from £19.99 on an iPhone are possible alternatives when the screen turns out to be fine.

All repairs are backed by a warranty, and we are independent device specialists with more than a decade of experience rather than an official service point. Bring the phone to 62a High St, Corby, or call 01536 260 558 to talk it through first. If you cannot get here, post it by Royal Mail or DPD and we will test it on arrival, usually dispatching it the same day.
