### What is Crazy Time?

Released in June 2020 by Evolution Gaming, Crazy Time was constructed upon the success of earlier titles like *Dream Catcher* and *Monopoly Live*. The game is hosted in a brilliantly colored, Willy Wonka-esque studio including an enormous, 52-segment wheel spun by a charismatic, live speaker.

Unlike conventional fruit machine, Crazy Time bridges the gap between social gaming and conventional gambling. Gamers position bets on the sectors they think the wheel will land on. If the flapper stops on their chosen sector, they win. However, the real attraction of the video game lies in its four distinct benefit rounds, which offer multipliers that can scale winnings to astronomical heights.

### The Core Game Mechanics and Betting Options

The 52-segment wheel is divided into eight various results. Gamers can select to bank on numbers (1, 2, 5, or 10) or on any of the four bonus offer video games.

Wheel Segment Payment/ Multiplier Number of Segments on Wheel Possibility (%) **Number 1** 1:1 21 40.38% **Number 2** 2:1 13 25.00% **Number 5** 5:1 7 13.46% **Number 10** 10:1 4 7.69% **Coin Flip** Perk Round 4 7.69% **Cash Hunt** Reward Round 2 3.85% **Pachinko** Benefit Round 2 3.85% **Crazy Time** Benefit Round 1 1.92%

### The Top Slot Feature

Before every spin of the main wheel, a two-reel **Top Slot** spins concurrently above the primary game. One reel shows a random bet area (a number or a benefit game), while the other display screens a random multiplier. If the Top Slot effectively lines up a bet area with a multiplier, that multiplier is used to the segment for that spin. This can turbo charge standard payments and raise bonus round potential substantially.
