Big houses tend to come with big, complicated roofs, and much of Cyncoed fits that description. Larger detached homes here often have several roof slopes, valleys, chimney stacks and extensions, all of which need to work together to keep the weather out. Redland Roofing Cardiff, an independent, family-run roofing business based in Rumney, has worked on roofs of every size across Cardiff and South East Wales for over 30 years, and Cyncoed is well within reach of its east Cardiff base. More roof means more places for water to get in. Valleys wear over time, lead work can fail, flashing around chimneys and skylights can crack, and ridge tiles can loosen after a *roofers cardiff* winter of Atlantic winds and driving rain. On a larger home, a small leak can travel some distance before it shows, so finding the true source matters. Experienced roofers Cardiff homeowners can rely on will check the whole roof rather than just the spot where the damp appears, and that is how the team approaches every Cyncoed property. You will see photos of what has been found, so the explanation is never vague. Larger homes also mean larger projects when replacement is the ***More help*** right answer. A full replacement on a bigger detached or more complex roof typically takes 4 to 7 days, weather permitting, with the roof left watertight at the end of every working day. Tiled and slate roofs are both covered, and scaffolding and roofers are well coordinated, which reviews often mention. Like-for-like replacement usually falls under permitted development, though changing materials may need Cardiff Council consent, and the team can advise on this. Homes in Cyncoed, Lakeside and Lisvane all benefit from that kind of careful planning.
