What is a Crash Game?

Before diving into the specifics of *Big Bass Crash*, it helps to understand the underlying genre. Crash games are influenced by cryptocurrency trading charts and air travel styles (originated by games like *Aviator*).

In a crash game:

- A round starts with a multiplier starting at 1.00 x.
- The multiplier constantly increases as time passes (or in this case, as the angler's boat takes a trip even more).
- Gamers must cash out before the action suddenly stops (the "crash").
- If gamers money out in time, they win their stake increased by the current value. If they fail to squander before the crash, they lose their stake.

Big Bass Crash takes this basic, adrenaline-fueled formula and covers it in the lovely, familiar audiovisual branding of the *Big Bass* universe.
